

## INQUIRIES

If you want to know more about these statistics —

- ring Mr Joe Christensen, Canberra 526655 or our State Office, or
- write to Information Services, ABS, P.O. Box 10, Belconnen A.C.T. 2616

For copies of this publication contact Information Services, Canberra 526627 or State offices

## EMPLOYED WAGE AND SALARY EARNERS JULY 1977

### PRELIMINARY

#### MAIN FEATURES

The figures below refer only to civilian wage and salary earners excluding those in agriculture and private domestic service.

During July 1977:

- Total employment decreased by 8,300 persons, but in seasonally adjusted terms this represented an increase of 5,400.
- Male employment fell by 10,200 while female employment increased by 1,800.
- Private employment decreased by 11,400 persons and government employment increased by 3,000.
- Significant decreases occurred in manufacturing (7,800, mainly males), construction (2,000) and wholesale and retail trade (1,700). Employment in community services increased by 3,800.

#### EXPLANATORY NOTES

##### Introduction

This preliminary statement will be followed in due course by the monthly bulletin *Employment and Unemployment* (Catalogue No. 6213.0 Previously Ref. No. 6.4) which gives information in greater detail.

2. As from the February 1977 issue of this statement estimates of private and government employment have been on a revised basis, designed to achieve uniformity of classification in ABS statistical collections. Estimates on the revised basis back to June 1975 are contained in recent issues of *Employment and Unemployment* (Catalogue No. 6213.0 Previously Ref. No. 6.4). Revised estimates for the period June 1971 to May 1975 are available on request.

##### Reference period

3. Current data supplied by reporting enterprises or establishments generally refer to persons on the payroll for the last pay-period in each month.

##### Scope of estimates

4. The series in this statement relate only to *wage and salary earners*, not the total labour force. The statistics therefore exclude employers, self-employed persons, unpaid helpers and the unemployed. Employees in agriculture and private households are also excluded

because of the inadequacy of current data. For the sake of brevity, wage and salary earners are referred to in the tables as 'employees'.

5. Persons who are on paid leave or who work during part of the pay-period and are unemployed or on strike during the rest of the period are generally counted as employed. Those not shown on employers' payrolls because they are on leave without pay, on strike or stood down for the entire period are excluded.

##### Method of estimation

6. The estimates are based on benchmarks derived from the results of the 1971 population census and other relevant sources, such as special returns from government bodies and the Bureau's economic censuses and surveys. Month-to-month changes shown by current returns are linked to the benchmark data to derive the monthly estimates. Current returns are of three main types:

- payroll tax returns
- returns from government bodies
- other current employment returns (e.g. for hospitals).

7. Recorded employment obtained from these sources is estimated to account for nearly 90 per cent of the total number of employees in the industries covered. The balance (that is, unrecorded private employment) is estimated.

##### Government employment

8. Government employees comprise not only administrative employees but also all other employees of government bodies (Australian, State, local and semi-government) on services such as railways, road transport, banks, postal and telecommunications, air transport, education (including universities, colleges of advanced education, etc.), radio, television, police, public works, factories, marketing authorities, public hospitals (other than those run by charitable or religious organisations) and departmental hospitals and institutions.

NOTE. Any discrepancies between totals and sums of components in tables are due to rounding. The figures shown are subject to revision.

##### Symbols and other usages

- † Affected by industrial dispute.
- r revised
